

Product Description

- High performance, proven blends designed to remove solvent borne paint residue from surfaces of paint application equipment
- Designed to maximize efficiency and minimize waste
- Standardized blends reduce variability and drive cost from the system while remaining sustainable
- All blends have high active solvent content leading to less solvent required to clean equipment surfaces

General Application Instructions

- Efficient at removing wet and semi-dried paint from solvent borne paint applicators and equipment
- Demonstrated capability in reducing defects and foreign contamination on paint surfaces
- For external parts remove product with clean lint-free towel and let surface air dry.
- Utilize correct PPE and refer to MSDS for handling of equipment cleaners
- Compatible to use with paints and substrates of all major paint suppliers
